

FCC EEO 396 List of vacancies by job title

Date 396 filed: **September 20, 2013**

As of September 20, 2013, we have 1 vacant job position for a Broadband Cable Installer/Technician.

Due to economic conditions and uncertainty, it was determined that the position would be left unfilled until first quarter 2014 or later.

We did no interviewing nor hiring over the past 12 months.

When we are ready to fill the position or if we determine to open a new position, we will list it with the State of North Dakota Job Service, post it on our corporate website of CSiCable.com and list it with the appropriate technical schools in the area.
