

FCC EEO 396 List of vacancies by job title

Date 396 filed: September 6, 2012

As of September 6, 2012 we have 1 vacant job position for a Broadband Cable Installer/Technician.

Due to economic conditions and uncertainty, it was determined that the position would be left unfilled until mid fourth quarter of 2012 or possibly later. We did no interviewing nor hiring over past 12 months.

When we are ready to fill the position or if we determine to open a new position, we will list it with North Dakota Job Service, post it at CSiNewsNOW.com, and list it with appropriate technical schools in the area.
