Dec 1, 2014 Channel Swap Dec 31, 2014 - Jan 1, 2015

We have been notified that during December, WGN America (CSI 8) will cease being a “broadcast” channel, and will become a cable network.

From your standpoint, that change will not be noticeable, other than the WGN news from Chicago will cease.

Due to the classification change and our contractual agreements with other cable networks, we will move WGN to be in the EXPANDED CABLE package with other cable networks.

On Dec 31:

WGN will move to CSI Channel 37

On Jan 1:

CW will replace WGN on Channel 8.*

For Classic 80 Channel customers, please note the new channel positions.

- Final channel position subject to the negotiations with the Fargo broadcast TV stations, which is currently on-going.
- Also note: CBS - formerly KXJB - sold its tower, and is now transmitted via KVLV, they are calling themselves KX4 for the moment.
